Resources—Environmental Protection—Energy

Pursuant to the Americans with Disabilities Act, individuals who, because of a disability, need special assistance to attend or participate in a Senate Committee hearing, or in connection with other Senate services, may request assistance at the Senate Rules Committee, 1020 N Street, Suite 255 or by calling 916-324-9335. Requests should be made one week in advance whenever possible.

CALFED Program

0540 Resources Secretary

3870 Bay-Delta Authority

Background. The Delta is now at a critical crossroads. In the last year, the Delta ecosystem has deteriorated into a crisis now referred to as the Pelagic Organism Decline or POD. At the same time, State Water Project exports have hit record levels. The administration's Delta Smelt Action Plan included further study of the decline, but no action to address the three categories of identified causes – water project operations, invasive species, and contaminants. The risk of substantial Delta levee failure also has emerged as a possibility. After last year's budget reductions, the Administration undertook a comprehensive program, fiscal and governance review of the CALFED Bay-Delta Program, which found serious deficiencies in the program and in its governance. Recently, the administration released a 10-Year Action Plan that proposes further study and reorganization. Considering the current state of the Delta, this next year requires the State to set a new course in determining how to resolve the challenges now facing the Delta.

Governor's Budget. The Governor's Budget proposes \$250 million (\$26 million General Fund) for the state share of the CALFED Program. This is about \$75 million less than estimated expenditures in the current year due to a reduction in resources bond funds available for appropriation. General Fund support for the program is estimated to increase by nearly \$15 million in the budget year due to increases in funding for delta levees.

Finance Letter. A Finance Letter (dated April 18, 2006) proposes to transfer 68 of the 71 existing positions from the California Bay-Delta Authority to the Office of the Secretary for Resources. The proposal contained in the letter does not recommend legislation to eliminate the California Bay-Delta Authority as an independent entity or implement the Governor's new CALFED governance recommendations.

Previous Subcommittee Action. At the May 8 meeting of the Subcommittee, the following actions were taken:

- Approved the Governor's proposal for CALFED expenditures at the Department of Fish and Game.
- Approved CALFED expenditures and other Delta-related expenditures at the Department of Water Resources consistent with the table in Appendix I.
- Approved the Governor's proposal for CALFED expenditures at the State Water Resources Control Board.
- Approved the Governor's proposal for CALFED expenditures at the Department of Conservation.
- Approved the Governor's proposal for CALFED expenditures at the Department of Forestry and Fire Protection.

- Approved the Governor's proposal for CALFED expenditures at the San Francisco Bay Conservation and Development Commission.
- Rejected the Governor's Finance Letter proposal and instead transferred all California Bay-Delta Authority positions and contracts to the Department of Water Resources, Department of Fish and Game, Department of Health Services, and the Resources Agency. Selected vacant positions are proposed to be abolished and resultant savings directed to the Resources Agency to support the following recommendation:

The actions listed above are summarized in Appendix I that starts on Page 10.

The Subcommittee also requested staff, in consultation with the departments, LAO, and DOF, to develop trailer bill language to direct a new Deputy Secretary on Delta Resources at the Resources Agency to develop a Delta Action Plan to create a sustainable Delta. This plan should include the definition of a sustainable Delta, measurable goals and objectives, the necessary institutional structures to implement the plan, a strategic financing plan, a contingency plan and adaptive management strategies.

Authority Response. Staff has had several meetings with the Bay-Delta Authority to try and work toward a compromise proposal. The Authority maintains that it needs to transfer all positions of its positions to the Resources Agency to carry out the re-scoped duties of the Bay-Delta Authority. The Authority has indicated that it would be willing to move the administration function to another department.

Staff Comments. The proposed transfer of positions is problematic. The number of positions proposed to be transferred does not agree with the number of positions identified by the Controller. Furthermore, staff has not been provided with workload information justifying the need for all of the positions proposed for transfer to the Resources Agency given the modified scope of work to be accomplished. However, after staff discussions and discussions with the Bay-Delta Authority, staff has been convinced that more core staff is needed at the Resources Agency to continue to support robust public meetings and lead to an involved planning process to create a Delta Action Plan.

Furthermore, at the May 8 meeting of the Subcommittee, staff took actions to transfer contracts to various departments consistent with the action taken to reallocate staff. The Authority has provided more detailed information regarding its contracts, but this information cannot be cross referenced with the summary information provided earlier.

Staff also finds that the department has not set forth specific actions as to how it will address the Pelagic Organism Decline. The Delta ecosystem is currently in crisis, but there is no sense of urgency in fixing the problem. Furthermore, no additional monies have been allocated to address the problem.

Staff Recommendation. Staff recommends that the Subcommittee take the following actions:

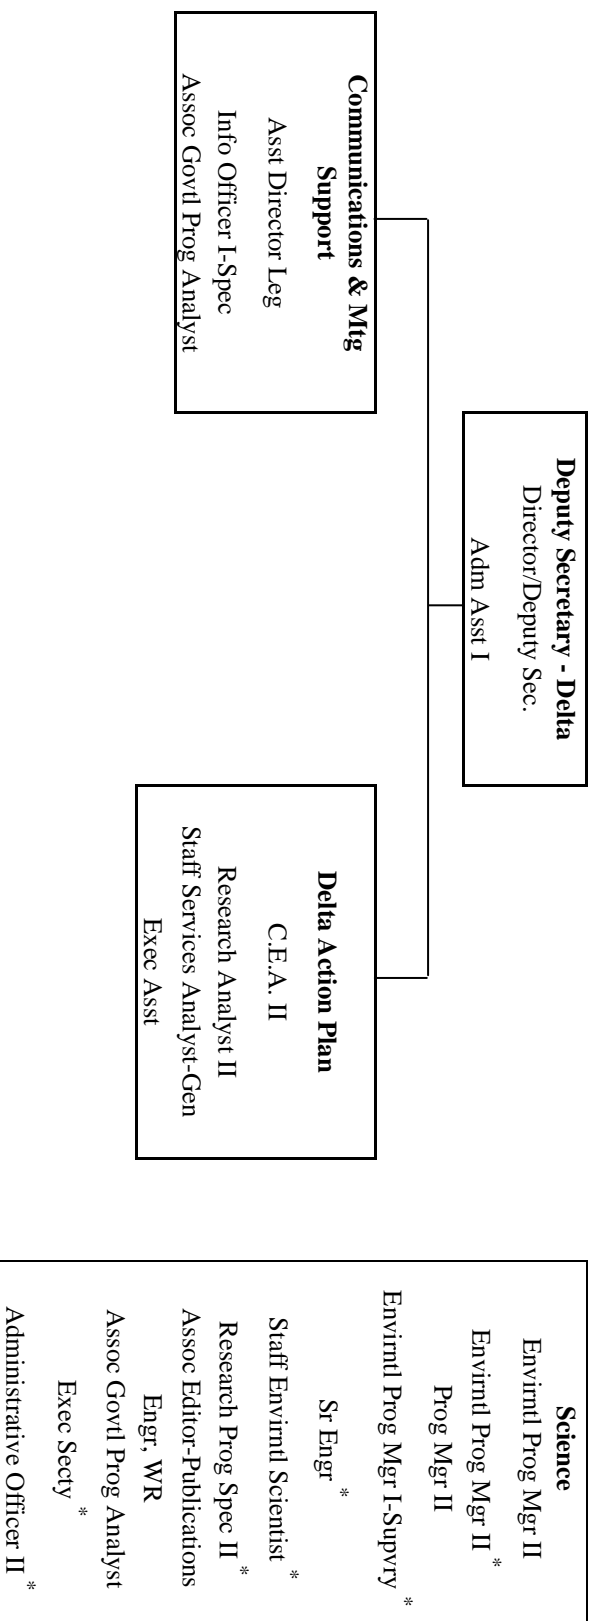

- Rescind the action taken on May 8 to allocate staff to various departments and adopt an alternative plan for allocating the positions at the Bay-Delta Authority to the Resources Agency, Department of Fish and Game, Department of Water Resources, and the

Department of Health Services. The alternative plan can be found on pages 5 – 7. The plan allocates the 67 positions in the following way:

- 21 positions to the Resources Agency. This includes the entire science program staff, who would report directly to the Secretary, a new deputy secretary for the delta to coordinate actions of the CALFED implementing agencies, and staff to continue the current CALFED communications and meeting management functions and to develop a Delta Action Plan.
 - 39 positions to the Department of Fish and Game to support the ecosystem restoration program and administration of the CALFED program, including providing administrative support to the Office of the Secretary for Resources (this is currently being carried out by the Department of Forestry and Fire Protection.)
 - 6 positions to the Department of Water Resources for the levees program, watershed program, and water use efficiency.
 - 2 positions to the Department of Health Services to support the drinking water quality program.
- Reduce BDA's reimbursement authority by \$14.7 million to reflect the transfer of the ecosystem restoration program to the Department of Fish and Game.
- Approve transfer of specific contracts at the Bay-Delta Authority staff to the following departments:
 - Science to the Resources Agency.
 - Delta Action Plan to the Resources Agency.
 - Administration to the Department of Fish and Game.
 - Ecosystem Restoration Program to the Department of Fish and Game.
 - Watershed Program to the Department of Water Resources.
 - Levees to the Department of Water Resources.
 - Drinking Water Quality to the Department of Health Services.
- Approve trailer bill language that does the following:
 - Directs the Secretary for Resources to develop a long-term Delta vision and action plan to create a sustainable Delta. This plan should include the definition of a sustainable Delta, measurable goals and objectives, the necessary institutional structures to implement the plan, a strategic financing plan, a contingency plan and adaptive management strategies.
 - Expresses legislative intent that all public processes currently part of the CALFED Bay-Delta program will continue unless legislation is enacted to change these processes.
 - Expedite short-term science contracts related to the Pelagic Organism Decline.
- Approve supplemental report language to require the Secretary for Resources, by October 1, 2006, to report on the actions it will take, other than study, in the next fiscal year to stabilize the ecosystem in the Delta and to address the Pelagic Organism Decline.
- Approve budget bill language to require the Secretary for Resources to submit the report on actions being taken to address the Pelagic Organism Decline before funds in this item may be allocated for construction or acquisition related to the South Delta Improvement Program.
- Approve budget bill language to require that the administrative positions being transferred to the Department of Fish and Game be used to support the CALFED program

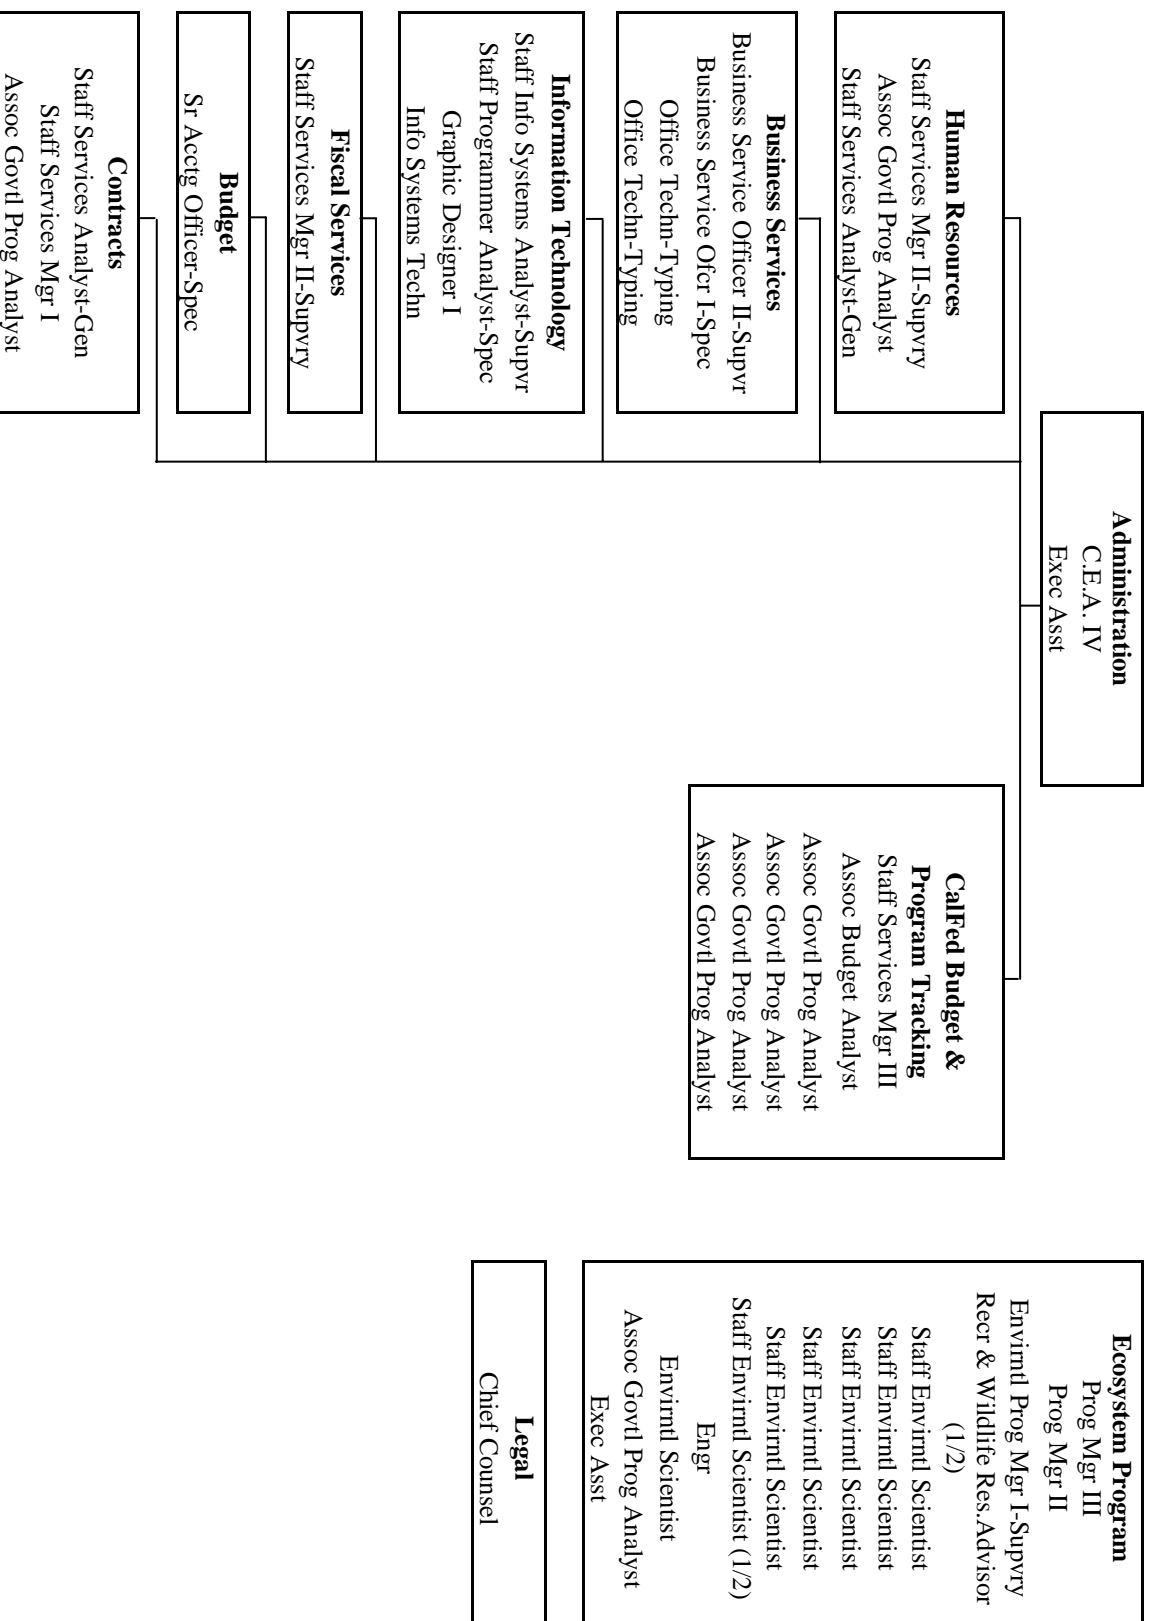

and to provide general administrative support to the Office of the Secretary for Resources.

3600 Department of Fish and Game

1. Ecosystem Restoration Program

Governor's Budget. The Governor's budget provides \$8.9 million for the department to implement the CALFED program. (These expenditures were approved at the May 8 meeting of the Subcommittee and are detailed in Appendix I.)

May Revision. The May Revision proposes to continue to transfer additional pieces of the Ecosystem Restoration Program to the Department of Fish and Game. This proposal increases the department's expenditure authority by \$25.3 million in reimbursements and \$2.5 million in Proposition 50 bond funds to support 10 new positions and various ecosystem restoration projects. The new reimbursement authority is from the following sources:

- \$3.3 million from the Department of Water Resources.
- \$10 million from the Wildlife Conservation Board.
- \$12 million from the State Water Project contractors to fund projects and two positions.

The Proposition 50 bond funds will be allocated to support five new positions and three existing positions transferred from the Bay-Delta Authority.

The May Revision also proposes budget bill language to reappropriate Proposition 204 and Proposition 50 bond funds to support the ecosystem restoration program that were formerly allocated to the Bay-Delta Authority.

Staff Comments. Staff supports transferring the ecosystem restoration program to the Department of Fish and Game; however, there are several components of this new proposal that are confusing. First, there is relatively no explanation of what the increase in reimbursements will support. Furthermore, information provided by the department suggests that some of the ecosystem restoration program will remain at DWR and the Bay Delta Authority (Resources Agency).

Staff Recommendation. Staff recommends that the Subcommittee take the following actions:

- Approve the May Revision proposal to consolidate the ecosystem restoration program at DFG.
- Approve supplemental report language to require that the Resources Agency report on all of the ecosystem restoration program expenditures at department's other than the Department of Fish and Game and provide rationale for why those components should stay at the respective departments.

3860 Department of Water Resources

1. Various Items

Governor's Budget. The Governors' budget proposes \$212 million for the department to implement the CALFED program. (The Subcommittee approved \$200 million of these expenditures at its May 8 meeting. The action taken at the Subcommittee meeting is contained in Appendix I.)

Finance Letter. A Finance Letter (dated March 30, 2006) proposed to reappropriate the following funds:

- **Environmental Water Account.** Reappropriate \$65.8 million in Proposition 50 bond funds to implement the Lower Yuba River Accord for EWA asset purchases and DFG staff support.
- **Water Supply Reliability.** Reappropriate \$2.5 million in Proposition 50 bond funds to continue assistance to local agency partnerships to plan and develop locally controlled projects to increase water supply reliability.
- **Storage.** Reappropriate \$2.1 million in Proposition 13 bond funds to contract with the Santa Clara Valley Water District for the San Luis Bypass feasibility study.

Open Items. At the May 8 meeting of the Subcommittee the following items were held open pending additional information about why these appropriations were needed when \$4.2 million had not been expended for similar activities:

- **Fish Collection, Handling, Transportation, and Release Evaluation.** The budget proposes \$2.6 million in Proposition 13 bond monies to collect information on improving the design and operation of fish collection, handling, transportation, and release of the State Water Project and Central Valley Project water intakes in the south Delta. The focus of the study is Delta smelt. The Department of Fish and Game is conducting three studies and DWR is conducting two other studies.
- **Evaluation of Fish Facility Improvement Alternatives.** The budget proposes \$990,000 in Proposition 13 bond monies to identify and evaluate alternatives for reducing fish predation in Clifton Court Forebay with the existing screening facilities.

Department Response. The department indicates that it only needs an additional \$2 million in the budget year to conduct these studies above what has already been reappropriated to the department.

Staff Recommendation. Staff recommends that the Subcommittee take the following actions:

- Approve the Finance Letter proposals.
- Approve \$2 million in Proposition 13 bond funds for the Fish Collection, Handling, Transportation, and Release evaluation and the evaluation of fish facility improvement alternatives.

Appendix I

3600 Department of Fish and Game

Action. Approved the following Delta-related funding for the Department of Fish and Game:

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
Oversight and Coordination				
<i>Base Budget</i>				
- Supports positions to ensure that CALFED program is in compliance with environmental laws and regulations.	\$166	General Fund	2.0	X
Ecosystem Restoration Program				
<i>Base Budget</i>				
- Conducts restoration projects, manages ecosystem restoration grant program, issues permits, monitors restoration projects, participates in regional plan development, and guides environmental documentation.	\$4,276	Prop 50	33.8	X
- Conducts restoration projects, manages ecosystem restoration grant program, issues permits, monitors restoration projects, participates in regional plan development, and guides environmental documentation.	\$628	General Fund	5.0	X
- Conducts restoration projects, manages ecosystem restoration grant program, issues permits, monitors restoration projects, participates in regional plan development, and guides environmental documentation.	\$490	Reimbursements	4.0	X
- Conducts restoration projects, manages ecosystem restoration grant program, issues permits, monitors restoration projects, participates in regional plan development, and guides environmental documentation.	\$239	Federal	2.3	X
<i>Finance Letter</i>				
- Supports development of NCCP/HCP for the Central Valley.	\$2,000	State Water Project Funds	16.0	X
- Supports contracts with local jurisdictions to support development of NCCP/HCP for the Central Valley.	\$500	Federal Funds		X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
- Switch funding of five existing positions supported by Proposition 50 bond funds to State Water Project Funds.	-\$263	Prop 50	-5.0	X
Conveyance Program				
<i>Base Budget</i>				
- Supports studies to define fish movement in the delta, assists in the development of technologies in water transfer and fish screening, and examines sources of predation.	\$84	General Fund	1.0	X
Science Program				
<i>Base Budget</i>				
- Collects and analyzes data on delta resident fishes and tracks Interagency Ecological Program listed species.	\$464	Federal	4.3	X
- Collects and analyzes data on delta resident fishes and tracks Interagency Ecological Program listed species.	\$294	Fish and Game Preservation Fund, Dedicated	1.0	X
Total Governor's Budget	\$8,878		64.4	
Total Senate Budget	\$8,878		64.4	

3860 Department of Water Resources

Action. Approved the following Delta-related activities for the Department of Water Resources:

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
Oversight and Coordination				
<i>Base Budget</i>				
- Supports review of CALFED-related encroachment permit applications submitted to the Reclamation Board.	\$279	General Fund	2.0	X
Ecosystem Restoration Program				
<i>Base Budget</i>				
- Supports federal-state cost-share agreement between DWR, USBR, USFWS, and DFG for fishery restoration activities.	\$1,575	Prop 204	1.0	X
- Supports Fish Passage Improvement Program to do fish passage assessment.	\$297	Prop 50	2.0	X
- Supports Aquatic Restoration Planning and implementation program to facilitate environmental enhancement by developing habitat restoration and fish passage in the Yolo Basin.	\$1,002	Prop 50	3.0	X
- Supports activities to manage the Four Pumps Agreement to mitigate fish loss at the State Water Project's Delta Pumping Plant.	\$6,452	State Water Project Funds	5.2	X
<i>Budget Change Proposal</i>				
- Supports a contract with DFG to fund several multi-year ecosystem restoration projects that need additional funding for completion.	\$10,900	Prop 13	0.0	X
- Supports construction of a larger scale aeration demonstration project at the San Joaquin River Deep Water Ship Channel.	\$3,600	Prop 13	0.0	X
- Supports operation and maintenance of the aeration demonstration project.	\$600	Prop 13	3.0	X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
<i>Finance Letter</i>				
- Support development of data and actions for the HCCP/NCP for the Central Valley, including assessment and planning of fish passage improvements and invasive fish species eradication.	\$817	Prop 50	4.0	X
- Support development of a Memorandum of Understanding, a Planning Agreement, and preliminary work on one or more HCP/NCCPs for the Central Valley. The SWP contracts and CVP contractors will collectively contribute \$3 million annually to support this effort at DWR, DFG, USFWS, and NOAA for three years.		SWP Funds	3.0	X
- Extend liquidation of \$8.2 million to construct facilities to control waste discharges that contribute to low dissolved oxygen and other problems on the San Joaquin River and in the South Delta and to construct facilities to control drainage from abandoned mines.		Prop 13	0.0	X
Environmental Water Account				
<i>Base Budget</i>				
- Environmental Water Account asset purchases.	\$8,800	Prop 50	0.0	X
- Environmental Water Account purchases state support.	\$143	Prop 50	1.7	X
Water Use Efficiency				
<i>Base Budget</i>				
- Supports the California Irrigation Management Information System and provides technical assistance and outreach for water conservation activities.	\$1,124	General Fund	6.0	X
- Supports the administration of the CALFED Water Use Efficiency grant program, the administration of the desalination grant program, and technical assistance on water recycling projects.	\$2,597	Prop 50	9.4	X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
- Supports technical assistance and review of agricultural water management plans, urban water management plans, and development of new water conservation technologies. <i>Budget Change Proposal</i>	\$1,885	Energy Resources Program Account	10.0	X
- Supports grants for water use efficiency projects (50 percent allocated to urban projects and 50 percent allocated to agricultural projects).	\$30,136	Prop 50	0.0	X
- Grant program administration and technical assistance.	\$2,034	Prop 50	0.0	X
- Supports loans for agricultural water conservation. Loans can be used to match grant funds. <i>Finance Letter</i>	\$15,000	Prop 13	0.0	X
- Reappropriate \$5.2 million in water use efficiency grants appropriated in 2003.		Prop 50	0.0	X
Watershed Program				
<i>Base Budget</i>				
- Supports administration of the CALFED Watershed grant program.	\$252	Prop 50	2.0	X
<i>Budget Change Proposal</i>				
- Technical staff support for the Watershed Program.	\$667	Prop 50	3.3	X
<i>Finance Letter</i>				
- Reappropriate \$19 million for the Watershed Grant Program.		Prop 50	0.0	X
Drinking Water Quality				
<i>Base Budget</i>				
- Supports contract to model options for improving water quality in the Delta.	\$81	General Fund	0.0	X
- Supports data analysis and Delta computer modeling support for the CALFED drinking water quality program. The current focus is on improving water quality modeling of the upper San Joaquin River.	\$162	Prop 50	1.0	X
- Supports the development of the Franks Tract Project.	\$309	State Water Project Funds	1.9	X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
<i>Budget Change Proposal</i>				
- Supports evaluating several possible alternatives for the Franks Tract Pilot Project.	\$1,245	Prop 13	3.5	X
- Supports evaluating several possible alternatives for the Franks Tract Pilot Project.	\$4,618	Prop 50	0.0	X
- Supports evaluating several possible alternatives for the Franks Tract Pilot Project.	\$600	State Water Project Funds	0.0	X
- Supports final design and construction of the Franks Tract Pilot Project.	\$2,800	Prop 50	0.0	
- Supports final design and construction of the Franks Tract Pilot Project.	\$5,500	State Water Project Funds	0.0	
<i>Finance Letter</i>				
- Funding to start a new multi-year study conducted by USGS to evaluate methods to improve conveyance and water quality in the Delta. The study is the Low Intensity Chemical Dosing Project and will evaluate ways of reducing dissolved organic carbon levels in Delta drinking water supplies.	\$1,534	Prop 13	0.0	X
Levees				
<i>Base Budget</i>				
- Supports staff to implement the Delta Levees Special Projects Program, Delta Levee Maintenance Subvention Program, Emergency Response, Risk Management, and Subsidence Research.	\$1,135	Prop 50	13.0	X
- Supports staff to implement the Delta Levees Special Projects Program, Delta Levee Maintenance Subvention Program, Emergency Response, Risk Management, and Subsidence Research.	\$373	State Water Project Funds	2.0	X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
<i>Budget Change Proposal</i>				
- Subventions for delta levee projects.	\$8,370	General Fund	0.0	X
- Subventions for delta levee projects.	\$995	Delta Flood Protection Fund	0.0	X
- Supports the Delta Risk Management Study.	\$2,000	General Fund	0.0	X
- Supports the Delta Risk Management Study.	\$1,000	Prop 50	0.0	X
- Supports Delta levee program staff.	\$3,635	General Fund	18.0	X
- Supports various studies and other Delta-related contracts.	\$400	General Fund	0.0	X
- Supports various contracts.	\$600	General Fund	0.0	X
<i>Finance Letter</i>				
- Extend liquidation of \$2.5 million in subventions appropriated in 2003 to local districts completing 14 projects that are part of the Delta Levees Special Flood Control Projects Program.		Prop 50	0.0	X
Water Supply Reliability				
<i>Base Budget</i>				
- Supports staff and contracts for projects that increase water supply reliability through the planned and coordinated management of groundwater and surface water resources, including managing 22 MOU partnerships throughout the state.	\$6,806	Prop 50	16.6	X
<i>Finance Letter</i>				
- Extend liquidation of \$200,000 to support a contract with CSU, Sacramento to provide facilitation services for program activities.		Prop 50		X
Conveyance Program				
<i>Base Budget</i>				
- Supports North Delta Flood Control and Ecosystem Restoration Project.	\$477	General Fund	3.0	X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
- Supports design and construction of permanent operable barriers, which is part of the South Delta Improvement Program.	\$10,000	State Water Project Funds	20.0	X
- Supports contract and position to evaluate Clifton Court Fish Screen intake alternatives.	\$1,000	State Water Project Funds	1.0	X
- Supports contract and position to evaluate water quality improvements from the Through-Delta Facility and additional modeling and evaluation of alternatives to this facility.	\$800	State Water Project Funds	1.0	X
- Supports construction and removal of temporary rock barriers in the south delta.	\$6,600	State Water Project Funds	2.0	X
- Supports management of the Conveyance Program.	\$102	State Water Project Funds	0.5	X
<i>Budget Change Proposal</i>				
- Evaluate cost-effective fish facility improvement alternatives at the State Water Project and Central Valley Project intake facilities.	\$990	Prop 13	0.0	Hold Open
- Continue fish collection, handling, transportation and release study and for review of Tracy Fish Test Facility Project (supports 9 existing positions).	\$2,554	Prop 13	0.0	Hold Open
- Support fisheries related studies and make recommendations related to the Through-Delta facility (supports 5 existing positions).	\$2,000	Prop 13	0.0	X
- Supports final design and construction costs for the South Delta Improvements Program permanent operable barriers.	\$26,600	Prop 13	0.0	X, with TBL
- Supports final design and construction costs for the South Delta Improvements Program permanent operable barriers.	\$15,000	Prop 50	0.0	X, with TBL
<i>Finance Letter</i>				
- Reappropriate \$707,775 to continue the second phase of investigations of the South Delta Hydrodynamic Investigations.		Prop 13	0.0	X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
- Reappropriate \$4.2 million from funds appropriated in 2004 and 2005 to support the ongoing study to improve design, collection, and operation of fish collection, handling, transportation and release facilities.		Prop 13	0.0	X
- Extend liquidation of \$154,079, for the second time, that remains to support an ongoing study of hydrodynamics and fishery response to water operations in and around the Delta Cross Channel.		Prop 13	0.0	X
Science Program				
<i>Base Budget</i>				
- Supports contracts and positions for monitoring and special studies of the water quality and ecology in the Delta. Supports \$3.5 million in contracts with DFG, USFWS, USGS, and various universities and laboratories.	\$7,279	State Water Project Funds	21.7	X
Storage Program				
<i>Budget Change Proposal</i>				
- Reversion of \$5.5 million in Proposition 50 bond funds appropriated in 2003 and 2004.		Prop 50	0.0	X
- Supports evaluation of common assumptions to help evaluate which storage proposal is the preferred storage alternative.	\$1,300	Prop 50	2.5	X
- Supports evaluation of a North of Delta storage facility (Sites reservoir).	\$3,100	Prop 50	19.0	X
- Supports a contract with the Contra Costa Water District to evaluate enlarging Los Vaqueros reservoir.	\$1,000	Prop 50	1.3	X, with BBL
- Supports evaluation of additional storage on the upper San Joaquin River.	\$1,000	Prop 50	3.0	X
- Supports contract with Santa Clara Valley Water District to complete the San Luis Point Bypass feasibility study.	\$1,999	Prop 13	0.0	X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
<i>Finance Letter</i>				
- Extend liquidation of \$2.1 million for a contract with the Santa Clara Valley Water District for the San Luis Bypass feasibility study.		Prop 13	0.0	X
Total Governor's Budget	\$212,124		186.6	
Total Senate Budget	\$200,280		186.6	

Action. Approved the following budget proposals that are related to the Delta, but not included in the administration's summary of total expenditures on the CALFED program:

Activity	Amount	Fund Source	Positions	Approve
Sacramento Valley Water Management Program				
<i>Budget Change Proposal</i>				
- Funding to complete environmental documents supporting the Sacramento Valley Water Management Program.	\$60	Prop 204	0.0	X
State Water Project				
<i>Budget Change Proposal</i>				
- Establish a position to provide legal advice and expertise regarding State Water Project contracting and environmental compliance issues.		State Water Project Funds	1.0	X
- Establish a position to support biological studies to guide restoration efforts in the Yolo Bypass.		State Water Project Funds	1.0	X
- Establish positions to implement the terms and conditions required under OCAP for ongoing operations of Oroville Facilities.		State Water Project Funds	3.0	X
- Establish a position and contracts to support the Interagency Ecological Program.		State Water Project Funds	1.0	X
- Establish positions to support SWRCB mandated Water Quality Compliance Monitoring programs to carry out compliance monitoring for SWRCB Decision D-1641.		State Water Project Funds	4.0	X
- Establish positions to support administration and program control for the Division of Environmental Services.		State Water Project Funds	3.0	X
- Establish a position to support complex modeling analysis of the Delta.		State Water Project Funds	1.0	X
- Restore positions to support the operation of the State Water Project.		State Water Project Funds	80.0	X

3940 State Water Resources Control Board

Action. Approved the following CALFED-related funding for the State Water Resources Control Board:

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
Water Use Efficiency Program				
<i>Base Budget</i>				
- Supports staff to administer the CALFED water use efficiency grant program and provide technical assistance on water recycling projects.	\$153	Prop 13	1.6	X
- Supports staff to administer the CALFED water use efficiency grant program and provide technical assistance on water recycling projects.	\$902	Prop 50	9.0	X
<i>Budget Change Proposal</i>				
- Supports grants for water recycling projects.	\$7,000	Prop 13		X
Watershed Program				
<i>Base Budget</i>				
- Supports staff to administer the CALFED Watershed grant program and provide technical assistance on watershed projects.	\$82	Prop 13	0.8	X
- Supports staff to administer the CALFED watershed grant program.	\$100	Prop 50	1.0	X
<i>Budget Change Proposal</i>				
- Supports watershed grants.	\$5,990	Prop 50		X
- Supports watershed grants.	\$276	Prop 13		X
Drinking Water Quality Program				
<i>Base Budget</i>				
- Supports staff to administer the CALFED Drinking Water grant program and provide technical assistance on drinking water projects.	\$82	Prop 13	0.8	X
- Supports staff to administer the CALFED Drinking Water grant program and provide technical assistance on drinking water projects.	\$124	Prop 50	1.3	X

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
<i>Budget Change Proposal</i>				
- Funding for non-point source pollution control grants.	\$101	Prop 13		X
- Funding for drinking water quality grants.	\$3,429	Prop 50		X
Total Governor's Budget	\$18,239		14.5	
Total Senate Budget	\$18,239		14.5	

3480 Department of Conservation

Action. Approved the following CALFED-related funding for the Department of Conservation:

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
Oversight and Coordination				
<i>Base Budget</i>				
- Supports a position to review projects for consistency with the CALFED program.	\$96	Soil Conservation Fund	1.0	X
Watershed Program				
<i>Base Budget</i>				
- Program delivery associated with the Watershed Coordinator Grant Program.	\$228	Prop 50	2.0	X
Total Governor's Budget	\$324		3.0	
Total Senate Budget	\$324		3.0	

3540 Department of Forestry and Fire Protection

Action. Approved the following CALFED-related funding for the Department of Forestry and Fire Protection:

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
Watershed Program				
<i>Base Budget</i>				
- Technical assistance and outreach activities that provide information on issues concerning the impacts of wildfire and forest management on watershed health to watershed groups and CALFED agencies, including supporting development of the California Watershed Manual.	\$159	Prop 50	0.0	X
Total Governor's Budget	\$159		0.0	
Total Senate Budget	\$159		0.0	

3820 San Francisco Bay Conservation and Development Commission

Action. Approved the following CALFED-related funding for the San Francisco Bay Conservation and Development Commission:

Activity	Amount	Fund Source	Positions	Approve
Oversight and Coordination				
<i>Base Budget</i>				
- Supports permitting for CALFED projects and beneficial use of dredged materials for Delta levees.	\$88	General Fund	1.0	X
Total Governor's Budget	\$88		1.0	
Total Senate Budget	\$88		1.0	

4260 Department of Health Services

Action. The following was provided for informational purposes.

Activity (\$ in thousands)	Amount	Fund Source	Positions	Approve
Drinking Water Quality Program				
<i>Base Budget</i>				
- Supports development of a regional strategic framework, performance measures, and conceptual models.	\$125	Prop 50	0.0	X
Total Governor's Budget	\$125		0.0	
Total Senate Budget	\$125		0.0	

3870 California Bay-Delta Authority

0540 Secretary for Resources

Action.
